Professional Summary

Results-driven React Developer with 3+ years of experience building scalable web applications. Specialized in React.js, TypeScript, and Redux Toolkit. Improved user engagement by 35%. Lowered page load time by 28%. Accelerated release cycles from 7 days to 1 day using CI/CD automation. Experienced in REST API integration and Agile development.

Work Experience

Software Engineer

Oct 2025 – Present

GlobalLogic, Noida

- Built and maintained large-scale React and TypeScript applications supporting 15K+ active users.
- Implemented advanced state management using Redux Toolkit and RTK Query for complex workflows.
- Improved application responsiveness and stability through performance tuning and code optimization.
- Integrated secure REST and GraphQL services with centralized authentication and logging.
- Automated build, testing, and release processes using Docker and GitHub Actions.
- Reviewed pull requests, guided junior developers, and promoted coding best practices.
- Coordinated with backend, QA, and product teams to deliver high-quality features.

Associate Software Engineer

Jul 2024 – Sep 2025

GlobalLogic, Noida

- Delivered and shipped 12+ customer-facing features using React, Redux Toolkit, React Router, TypeScript, and GraphQL, boosting platform engagement by 35%.
- Refactored legacy code to modern React Hooks and Redux Toolkit, decreasing bug reports by 25%.
- Integrated GraphQL endpoints and RESTful APIs to optimize data flow, decreasing load time by 28%.
- Automated deployment with Docker and GitHub Actions; shortened deployment windows from 7 days to 1 day.
- Mentored 3 graduate trainees; 2 promoted to Associate Engineer within 9 months.
- Collaborated with cross-functional teams to ensure seamless integration and timely delivery of features.

Trainee Software Engineer

Sep 2023 – Jun 2024

GlobalLogic, Noida

- Delivered 2 proof-of-concept projects using React, Redux Toolkit, React Router, and GraphQL during an 8-week MERN boot-camp.
- Fixed 60+ bugs and streamlined UI workflows, decreasing support tickets by 18%.
- Built and tested RESTful and GraphQL APIs, achieving API query latency improvement of 30% using Postman.
- Consistently met sprint goals and presented deliverables to stakeholders in Agile ceremonies tracked via JIRA.
- Participated in code reviews and contributed to improving the team's coding standards.

Software Engineer Trainee (Internship)

Feb 2023 – Aug 2023

GlobalLogic, Noida

- Completed intensive React and Redux training, mastering component lifecycle, hooks, and state management.
- Built responsive web interfaces with Tailwind CSS and Styled Components.
- Practiced modern developer workflows using Git, GitHub, Docker, and Postman for collaboration and continuous delivery.
- Engaged in continuous learning to stay updated with the latest React and backend technologies.

Technical Skills

Languages: JavaScript (ES6+), TypeScript

Frontend: React.js, Redux, Redux Toolkit, RTK Query, React Router, Context API

UI: HTML5, CSS3, Tailwind CSS, Material UI, Styled Components, Responsive Design

Backend: REST APIs, GraphQL, Node.js, Express.js, JWT

Database: PostgreSQL, MongoDB, MySQL, Firebase

Testing: Jest, React Testing Library, Unit Testing

Tools: Git, GitHub, Docker, GitHub Actions, CI/CD, Postman, Jira, Webpack, Vite

Core: State Management, Performance Optimization, API Integration, Code Quality, Agile

Education

GLA University, Mathura

Aug 2019 – Jun 2023

Bachelor of Technology (B.Tech.) in Computer Science

CGPA: 8.2/10

Specialization: Artificial Intelligence and Machine Learning
